 Signature of Trustee/or Clerk, Board of Education Date

INSTRUCTIONS for Form RP-6704-A3

Please complete this form with final data used for the 2009-2010 school tax levy for each municipality in your school district. This form MUST be filed with form RP-6704-B (and form RP-6704-C1, if applicable) in order to process your STAR reimbursement application.

NOTE: If your school district already has a worksheet that shows the data requested in columns (1) through (7), you should complete Items (8) through (15), write “See Attached” across the blank columns, and attach a legible copy of your worksheet.

- Column 1 - There is a separate line for each class in Nassau County – “Class 1”, “Class 2”, “Class 3” and “Class 4”. In this column, use the class number to identify the line of data for the appropriate class. If your school district is also in a Suffolk County town, enter all data for the town on one line with no class designation.
 - Column 2 - The year of the assessment roll upon which taxes are being levied for each municipality.
 - Column 3 - The taxable assessed value upon which the tax is levied. This is the assessed value after all school district exempt amounts have been subtracted and is the amount used to calculate each municipality’s tax rate. Do NOT subtract the STAR exempt assessed values from this amount.
 - Column 4 - The real property tax levy used to calculate each municipality’s tax rate. If your school district levies a library tax, do NOT include the amount of the library levy in this column. Do NOT subtract the amount of the levy to be reimbursed to the school district through the STAR program.
 - Column 5 - The tax rate per \$1,000 of assessed value determined for each municipality. If your school district levies a library tax, do NOT include the library tax rate in this amount.
 - Column 6 - If your school district levies a library tax, please enter the amount of the library levy apportioned to each municipality.
 - Column 7 - If your school district levies a library tax, please enter the library tax rate per \$1,000 of assessed value for each municipality.
 - Item 8 - The County delivers the proportions used to allocate the school district tax to the four classes in Nassau County to the school district each year.
 - Item 9 - If your school district levies a school district library tax, please indicate the name of the library.
 - Item 10 - If your school district receives any county sales tax revenue, enter the county name and amount of county sales tax revenue received (or estimated). List separately if county sales tax revenue is received from more than one county.
 - Item 11 - If applicable, please list the dates that installment payments are due.
 - Item 12-14 - Please list the date of the tax warrant, how many days the tax warrant is for and the date the tax warrant expires.
 - Item 15 - The trustee or clerk of the school board must sign this form.
-

THANK YOU!
